

A woman with curly hair, wearing a dark t-shirt and a dark apron, is looking down at a tablet computer she is holding with both hands. She is standing in a workshop or studio. In the background, there are stacks of wood, a large vase filled with long, thin sticks, and a window. The overall tone is muted and professional.

LARSON · JUHL[®]

Product **Catalogue**

www.larsonjuhl.com.au

At Larson-Juhl, we understand the importance of providing the best products and services to simplify your supplier experience and support you to grow your business.

We are proud to present our new product catalogue! Featuring our new collections, mouldings coming this year, as well as the Larson-Juhl classics you know & love.

We are committed to providing you with professional customer service and the best framing products.

For over 100 years, Crescent Brands has been at the forefront of innovation for wholesale matboards and framing manufacturing, creating some of the most renowned products on the market. Everything we create is crafted with the utmost attention to detail and designed with framers and artists in mind. Crescent Brands offers the largest selection of matboard products.

Crescent developed and produces some of the most recognisable and important brands in our industry, Novacore and Artcare®. As a picture frame manufacturer, we take pride in every sheet of matboard that's produced.

ARTCARE™
PRESERVE THE PAST, PROTECT THE FUTURE.

What's important to you? A grandparent's wedding photo? A vacation souvenir? A cherished baseball card collection? A one-of-a-kind family keepsake? Whatever you value, you want it to look perfect when you have it framed. Now, imagine if you could keep it looking perfect – not just for 10 or 20 years, but for generations to come. What if you could proactively guard against deterioration, fading, discoloration, and irritants in the environment? By choosing Artcare age-defying framing products, you can do exactly that.

While there are other products out there that are designed to “do no harm” to your photos, Artcare is different by actively protecting your keepsakes against harmful substances and gases lurking in the environment. Our products make caring for your most important photos and memorabilia easy and lasting.

Over time, these harmful gases cause art and photos to fade, yellow, or even deteriorate. We've all seen this happen, but now there's a way to prevent the irreparable ravages of time.

Technology that safeguards your keepsakes.

Just like antioxidants protect your skin from damaging substances, Artcare protects your keepsakes from harmful gases in the air. Natural minerals, called zeolites, trap and hold these gases, keeping them away from your cherished heirlooms forever.

Bainbridge

novacore™
WHITE CORE MATBOARD

Novacore matboard has helped more Australian framers build their business than any other brand of matboard. Backed by over 100 years of industry experience from Nielsen Bainbridge. Novacore offers a comprehensive range of the industry's most proven and established decorator colours, textures and oversized references, designed to meet all your creative needs.

Offering a superior quality of cut, assembled with premium quality, acid-free core and papers, buffered with calcium carbonate for enhanced longevity and board stability.

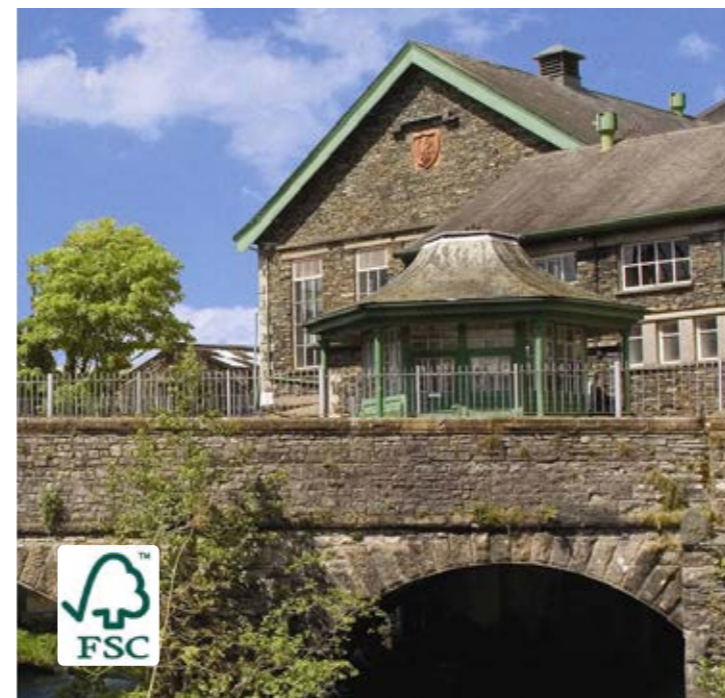

NOVACORE™ is a solid, bright white core matboard, suitable for standard, non-conservation framing

White Core. Specially formulated, pure bright white core to provide decorative bevels with neutral colour contrast.
Acid Free. Buffered acid-free core and backing.
Superior choice in colour range. Novacore offers specially selected colours, suitable for today's current trends.
Oversized. Wide variety of colours available in 40"x60" oversized.
Suedes. Beautiful fabric suede textured mats, on standard Novacore core and backing.

Environmental Commitment:

Our matboards only use environmentally sound adhesives and colourants that won't contaminate waterways, and recycled materials where feasible, including packaging. In addition, Nielsen Bainbridge matboard pulp comes from only farm grown trees, so for every tree consumed, another is planted.

Visit our **website** for our full range of matboards

ARQADIA™
WHITECORE

Introducing ArQadia™ Whitecore matboard, a joint venture between Larson-Juhl in Australia and Larson Juhl in New Zealand.

ArQadia™ Whitecore represents a colour palette of matboard specifically designed for the needs of the market in this part of the world.

Designed and put together in 2013, ArQadia™ Whitecore is based both on the most widely used colours in our region, and today's current colour trends.

The ArQadia™ Whitecore range boldly features an extensive range of whites and neutrals without forgetting the importance of the striking colours and gentle shades that are so much part of our native cultures.

As important as it is to be current with the selection of the colour palette, it is of equal importance to provide a decorator matboard which is manufactured to the highest standards.

Buffered to an alkaline pH and laminated with a specially formulated adhesive which is both pH neutral and archival, ArQadia™ Whitecore offers a smooth, crisp white core and is engineered to perform equally well when cut by hand or on automated cutting machines.

ArQadia™ Whitecore Quality Standards:

- Premium quality, crisp white core & backing.
- Smooth, clean and easy to cut.
- Acid Free surface, core and backing
- Alkaline buffered to a pH of 7.5 - 9.5
- Laminated with specially formulated neutral pH, non-plasticised, archival adhesive
- Consistent surface paper colours.
- Ideal for decorative art & general framing applications.
- Manufactured to comply with environmental standards.

JAMES CROPPER PLC

ESTABLISHED 1845

James Cropper has a rich heritage, respectfully manufacturing on the same site in the English Lake District since 1845. Our clients choose us because of our award-winning dedication to fulfil their needs whilst still maintaining the highest sustainability standards. Our premium paper mill in the UK is located in Burneside, Kendal.

James Cropper is a well respected name with a long history in the paper industry and is in fact, the world's only matboard manufacturer that is actually integrated with a paper mill.

The combination of a paper mill that manufactures raw product and then directly converts that product to matboard offers significant advantages in both guarantee of supply and superior quality.

Having full control from pulp to finished products allows James Cropper full control over the elements which go in to producing a quality board and the consistency of colour from batch to batch.

Artique™

CONSERVATION MATBOARD

Inspired from the colours of the world

Artique Conservation Matboards are designed to complement a wide variety of home decorating styles. Our broad range of saturated colours and tonal neutrals will complement any design project – whether you are framing a child's fingerpainting, a valuable work of art, or a customer's treasured collectible, Artique has the selection you need to preserve your customers' heirlooms with style.

Selection

- A beautiful palette of colour, ranging from classic neutrals to vibrant colours
- Oversized boards available in a broad range of your favourite colours
- Your preferred neutral colours available in solid colour, 8 ply core
- Ripple textured mats add versatility and drama

Exceptional Standards

- Conservation Quality
- Acid Free and Lignin Free
- Alkaline pH Buffered
- Smooth, Pristine Bevels
- Consistent Colours
- Bleed and Fade Resistant
- Meets Industry Recognised Guidelines for Conservation

Satisfaction Guaranteed

- As always with Larson-Juhl, your complete satisfaction is 100% guaranteed..
- Artique is available exclusively from Larson-Juhl, your trusted source for picture framing supplies.
