TRIBECA

BLACK & WHITE REDEFINED

Introducing the Tribeca Moulding Collection.

Redefine the essence of black and white profiles with Tribeca, where every frame tells a story of subtle classic design.

The embodiment of timeless allure and modern finesse, where the grace of Art Deco curves and lines intertwine. Enveloped in a classic matt black and white palette, adorned with scoop, reverse scoop, and square profiles, this collection unveils a new realm of creative expression for picture framers. With Tribeca, framing transcends mere presentation; it becomes an art that bridges eras, encapsulating both history and innovation within each frame. From minimalist settings to eclectic interiors, the collection seamlessly complements diverse styles, adding an understated touch of elegance or a whisper of opulence.
