Imperial is here!

The imperial collection features fine details and four classic antique finishes, gold, black, silver and white. The grace, elegance and stately detail of 17th-century France are the classic and timeless inspiration for our Imperial collection. These profiles are handcrafted with fine detail, will enhance portraits, classical and impressionist works, memorabilia and photographs.

This collection is a proven favourite across Europe and the U.K. and we are happy to present it to you.
